

Dear brothers and sisters, *Assalamu alaikum wa rahmatullahi wa barakaatuh!*

Alhamdu lillah, the national and local COVID-19 cases have been in decline for the past several weeks, and many of our community members are vaccinated against COVID-19.

COVID-19 Community Levels are a new tool by the Center for Disease Control and Prevention (CDC) to help communities decide what prevention steps to take based on the latest data. Levels can be low, medium, or high and are determined by looking at hospital beds being used, hospital admissions, and the total number of new COVID-19 cases in an area. Based on the recent CDC guidelines, COVID-19 Community Level for Williamson County is LOW.

In consideration of the above, we are making the following changes to our COVID-19 guidelines, effective immediately.

- **No social distancing during prayers; and**
- **Wearing a face mask is optional.**

We do strongly encourage everyone to continue to practice good hygiene. We will have face masks and hand sanitizers available in the Masjid for everyone's use.

If you or a member of your household experience any symptoms, please get tested immediately and refrain from visiting ICBC until you have been medically cleared.

We will continue to monitor the situation and make any changes to our guidelines as necessary. We pray that Allah SWT keeps all of us and our families safe and healthy, and thank our community members for their continued support and understanding.

Should you have any questions, please email us at info@icbrushycreek.org

Jazakum Allahu Khairan
