To Whom It May Concern

In Islam, modesty is a core religious value that guides dress and behavior. For Muslim girls, this includes maintaining proper covering and avoiding situations that may compromise modesty.

Some physical education (P.E.) activities or uniforms may conflict with these values. Therefore, Muslim girls may request exemption from certain activities unless privacy can be ensured, such as in all-female settings or when modest uniforms are allowed. We ask that schools accommodate such requests with understanding and respect for personal choice.

We thank you for your consideration and commitment to religious freedom. If you have any questions or need additional information, please contact us at (512) 850-4786 or via email at info@icbrushycreek.org
